

PARTICIPANT CONSENT FORM

UNDERSTANDING IMPACTS OF HOME ENERGY SAVING IMPROVEMENTS ON INDOOR AIR QUALITY

Delivered in partnership with Dudley Metropolitan Borough Council
Home Improvement Team, 4 Ednam Road, Dudley, DY1 1HL

If you want to take part in this study, please tick the boxes below and sign at the end to indicate you agree to take part in the study

I confirm that I have received, read and understood the Participant Information Sheet and Frequently Asked Questions Sheet for this WM-Net Zero study. I have had the opportunity to consider the information, ask questions and have had these questions answered satisfactorily.

I agree to the installation of air quality sensors at my property for the duration of the WM-Net Zero study. I understand sensors will remain the property of the University of Birmingham and will be collected at the end of the study (September 2026).

I understand that my participation in this study is voluntary and that I am free to withdraw from the study at any time until September 2026. My eligibility to receive home energy saving measures (if applicable) will not be affected by my withdrawal.

I consent to the sharing, storage and processing of Occupancy Survey information (a short questionnaire about my home) with the University of Birmingham for linkage to air quality data for research undertaken within the WM-Net Zero study.

I agree to be contacted and, if needed, visited by a member of the research team if there is a problem with the sensor (e.g. it stops working).

Your signature below indicates that you have agreed to participate in this research study, and that you have read and understood the information provided above and in the Participant Information Sheet. You will be given a signed and dated copy of this form to keep, along with any other printed materials deemed necessary by the study investigators.
